25/10/2017

It is with the utmost disgust and shock that #NOTINMYNAMESA has learnt of a domestic worker and mother who was grotesquely abused by her employer.

This heinous crime happened in Bronkhortspruit . A domestic worker was repeatedly raped by the evil perpetrator and as if this was not enough! This son of hell proceeded with the unspeakable. He forced our sister to perform acts of bestiality with a dog while he watched.

#NOTINMYNAMESA wishes to convey our deepest and sincere expression of shame and apology to this woman. South Africa should hang it's head in shame today, and ask itself "is this what has become of our nation?" we should further more rise as a people and say #NOTINMYNAME

#NOTINMYNAMESA calls upon the law enforcement agencies to treat this case with venomous speed and accuracy. This victim deserves swift justice!

The Suspect is expected to appear in court on Thursday. We call on all sectors of our society to join #NOTINMYNAMESA in publicly expressing our outrage! We furthermore call on all South Africans; Rich or poor; Black or White of any or no political persuasion to stand up and join hands with us in this fight against gender based violence.
